

Operation: Stingray

When: Wednesday January 11th, Arrival at 19:00

Where: MILSIM KUWAIT SHAAB park Field

A group of drug dealers transferring hundreds of pounds of drugs is scheduled to make a shipment. We have an inside man who was killed after his cover was blown, he reported that the group of about 20 had lots of weapons and ammo and are ready for a fight.

Even though the agent was found out, there was a decoy mission that "failed" to throw the dealers off so they wouldn't cancel the main one and they are expected to do so.

Your mission is to wait until they are well crossed over border and capture (kill if needed) as many of the group as you can and capture the drugs and turn them over to the coast guard as soon as you can. They may be meeting with another group in this at the border so the resistance may be double or more, use extreme caution.
